

IMAGINE YOUR LOCKER

Founded in 1975, LINCORA is a manufacturer of premium all welded standard and custom lockers. Premium means, among other things, that it is common to see 30 or 35 years old LINCORA lockers that are still structurally efficient.

Lockers are needed in virtually every facility and often are the only personal space an employee would have at work. We therefore believe that it is important to ensure that the lockers provided by the employer allow a better organization of storage and properly meet the employees' needs.

Today's new technologies give you the opportunity to fit the lockers to your space, and not the other way around. LINCORA has created a game changing tool, the LINCORA Configurator, which is at the very heart of our company's automation approach.

THE LINCORA CONFIGURATOR - 3 MAIN BENEFITS

- IMAGINE** and create a locker that will meet all your user's storage requirements.
- ADAPT** the locker to your space and not the other way around.
- ADJUST** the dimensions, if necessary, during the construction of your project.

Custom is our standard! Adapt the height, width and depth of your LINCORA locker up to **1/8 po (3 mm)** and create a locker that will meet all your user's requirements and will be perfectly adapted to his environment.

PREMIUM STANDARD & CUSTOM LOCKERS

BRIGHTEN UP YOUR WORKSPACE WITH INSPIRING COLORS!

Internal branding can help your employees better internalize your company’s mission, vision and values. A key aspect of this process are colors, as they encourage productivity and stimulation while keeping your employees engaged. We would be proud to become your partner in bringing your internal branding down to your locker rooms. A great color scheme can contribute to the creation of a safe and engaging workplace; one in which everyone can thrive. Harmonize your locker room’s colors with the ones of your brand logo, environment, or other design concept. The possibilities endless!

Share your favorite color code or send us a color sample. LINCORA will fabricate your dream locker that will answer all your user’s requirements and perfectly suit your environment.
